NEW CROP SEEDS, January 1st, 1935

To Our Market Garden Customers:

We are handing you herewith our modest little catalog - our 46th annual size. Some of you have dealt with us each year for nearly this entire length of time and we have enjoyed your friendship and appreciated your business.

Overhead makes a showy crop but an expensive one, and those who enjoy its picturesque glamor must share the bill. We strive to control and keep it down; even in the printing of our catalog. We believe that after concentrating our efforts into breeding and raising the best possible seed stocks they will continue to talk for and sell themselves.

Please bear in mind that the prices in this catalog are cash with order. When special arrangements are made and credit is given, the prices must necessarily be higher. The various banking agencies are the proper authorities to secure credit at the lowest cost.

Do not forget that with the severe weather conditions the past summer most seed crops were disappointingly low and after complete failures there is a real acute shortage of available planting stocks so do not wait until planting time to secure seeds.

Very truly yours,

S. D. WOODRUFF & SONS
